

Energy Use per end use category	KBTU	Dollars
cooking and domestic hot water	20,600	\$436
heating	43,300	\$721
lights and plugs	13,205	\$713
air conditioning	3,314	\$139
totals	80,419	\$2,009

	\$/KBTU
electrical costs:	\$ 0.05
gas costs:	\$ 0.02

Energy Use (in KBTU)

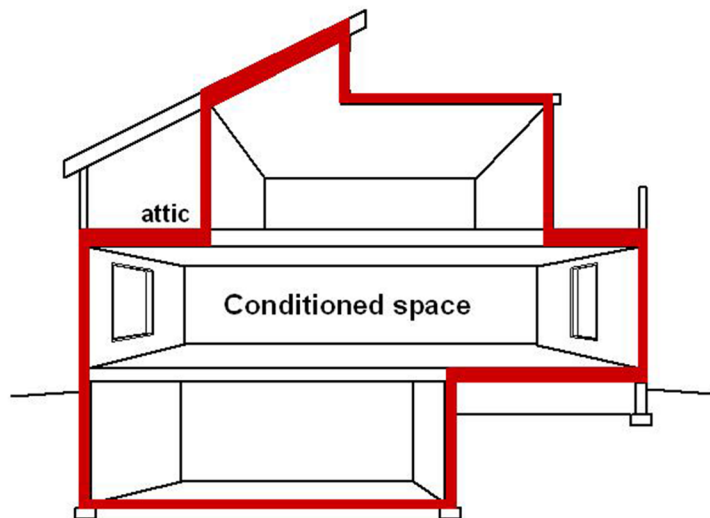

Energy Costs (in dollars)

Electricity: 1 BTU bought = 2 BTU delivered (or more)

Gas: 1 BTU bought = 0.8 (average) to 0.95 (Energy Star) BTU delivered

Envelope investments in roof, windows, walls, and basement floors is one of the best investments to reduce both energy usage and energy costs..
